International Research Conference-2019

“Sustainable business transition through technology and innovation”

GENERAL GUIDELINES

- Authors can submit their work either for Oral Presentation or Poster Presentation. Oral presentations will be held in parallel sessions categorized under thematic areas. Poster presentations will be held at a common venue.
- Authors should upload abstracts to the [CMT system](#) **leaving out** the names of authors and their affiliations for the purpose of reviewing. However, author details must separately be added to the appropriate section of the [CMT submission page](#).
- Abstracts **bearing author details** will be rejected.
- Authors should ensure to leave sufficient space in the Abstract to add author details after reviewing.
- Authors should add author details after the abstract is accepted for publication (**Camera Ready Copy**).
- Research work presented or published elsewhere will not be considered.
- Abstracts will be rejected without further consideration if plagiarism is detected.
- The Editorial Committee recommends all authors to verify their abstracts against plagiarism using a free online plagiarism checker before submission (e.g. <http://www.plagscan.com/seesources/analyse.php>).
- Authors should submit abstracts under one of the 18 thematic areas. However, the Editorial Committee reserves the right to assign the abstract to the most relevant thematic area if necessary.
- Authors should upload the scanned copy of Author Declaration Form signed by all authors, to the [CMT system](#) along with the abstract. Reviewing process will not commence until all the relevant documents and information are complete.
- If you wish to publish your research work in either Journal of Management and Tourism Research or Journal of Agriculture and Value Addition or Journal of Science and Technology, please submit the extended version (Extended Abstract) of your abstract that you submit to IRCUWU2019. The extended abstract template can be downloaded as a separate file. It should not exceed 4 pages excluding references. Other formatting information are the same as for the abstract.

Please follow the specific guidelines given below for Abstract preparation.

GUIDELINES FOR THE ABSTRACT

All abstracts should be written in English language using [MS Word](#) ([.docx/.doc format](#)).

Limits of the Abstract

SUPPLEMENTARY GUIDELINES FOR PREPERATIONS OF ABSTRACTS

Units

Use only the SI units. Keep a single space between two types of units (e.g. J mol⁻¹ K⁻¹). Use a negative exponent (e.g. kg m⁻³) and do **not** indicate units as divisions (e.g. kg/m³).

Nomenclature

Follow IUPAC nomenclature in naming chemical substances.

Mathematical operations and mathematical equations

Keep a single space before and after arithmetic operators.

e.g. $3 + 5 = 8$ $3 - 5 = -2$
 $3 \div 5 = 0.6$
 $3 \times 5 = 15$ (Use the multiplication symbol, and do not use the letter x or *)

Quantitative expression of scientific results

Keep a single space between the magnitude and the unit of a particular quantity. In expressing percentages, do not keep any space between the number and the % sign.

e.g. $5.00 \times 10^5 \text{ N m}^{-2}$ 56.7%

Significant figures

In reporting experimental measurements, do not keep digits that are not significant (beyond the precision of the scale of the instrument).

e.g. 4.6567 to be reported as 4.66 if the scale used is precise up to the second decimal place.

Parenthesis

Keep a single space before and after parenthesis. However, do not keep space between the first and the last letter/symbol inside the parenthesis. E.g. The magnitude of x is less than five ($x < 5$).

Important: The Abstract prepared according to guidelines should be placed on the template provided for final submission. [The Abstract should be submitted through the CMT system.](#)
