

**Accelerating Higher Education Expansion and Development (AHEAD) Operation
Consultancy on Outcome-based Education and Learner-Centred Pedagogy**

(UWU/AHEAD/ELTAELSE/FAS/ICC/CON/01)

Faculty of Applied Sciences (FAS), Uva Wellassa University (UWU)

1. Background and AHEAD Operation

The development of the higher education sector is of central importance to enable Sri Lanka to make the transition from a Lower Middle-Income Country (LMIC) to an Upper Middle-Income Country (UMIC). Recognizing this, the Government of Sri Lanka (GoSL) and the World Bank have agreed, to support the higher education sector through a Bank funded Accelerating Higher Education Expansion and Development (AHEAD) operation.

Accelerating Higher Education Expansion and Development (AHEAD) operation is organized into two components. The first is a Program Component that supports the national Higher Education Development Program. The second is a system strengthening, capacity building, and technical assistance component that will assist GoSL to strengthen the higher education sector and achieve the objectives of the AHEAD program component. This second will also cover monitoring and evaluation, policy analyses, program coordination and communication.

The implementing agency is the Ministry of Higher Education, Technology & Innovation (MHETI). The University Grants Commission (UGC) will coordinate the activities of the universities. There will be an Operations Monitoring and Support Team (OMST) which will coordinate and support all AHEAD activities between the MHETI, UGC, and the universities.

AHEAD has three Results Areas:

Results Area 1: Increasing Enrollment in Priority Disciplines for Economic Development

Results Area 2: Improving the Quality of Higher Education

Results Area 3: Promoting Research, Development and Innovation

Improving the Quality of Higher Education area covers the Enriching Learning, Teaching, Assessment, and English Language Skills Enhancement (ELTA-ELSE) Development Project (DP). This DP aims at improving the quality of higher education which has two main components: (a) academic and socio-emotional skills development and (b) enhancement of English language skills and One of the main goals of the higher education is to produce employable graduates that integrate into the workforce and positively contribute to the development of the nation.

2. Faculty of Applied Sciences and AHEAD ELTA-ELSE Faculty DP

The Faculty of Applied Sciences (FAS) is a pioneering Faculty and it was established in 2005 (previous name: Faculty of Science and Technology). The FAS consists of two academic Departments established at the inception of the university; Department of Science and Technology, and Department of Computer Science and Technology. The two Departments offer four degree programs, namely Science and Technology, Mineral Resources and Technology, Computer Science and Technology and Industrial Information Technology. All degree programs are at Sri Lanka Qualifications Framework (SLQF) Level 6. FAS performs on a unique operational model where both human and physical resources are optimally shared among Departments and degree programs. All four degree programs of the Faculty are aligned with the Vision and Mission of the UWU and are based on the value addition theme. The medium of instruction is in English from first year to fourth year.

Under the AHEAD Operation, the FAS has identified the following five activities to improve the quality of all degree programmes which are offered by FAS.

Activity 1: Improving English language skills

Activity 2: Revising the curricula of existing degree programs to meet the local and international demands

Activity 3: Introducing innovative and interactive learner centered teaching, learning and assessment procedures through an effective smart environment

Activity 4: Improving students' socio-emotional skills through career guidance and student welfare

Activity 5: Strengthening University and industry linkages

The FAS aims to produce globally competitive graduates who can sustain in any international working environment. In this regards, curriculum of four degree programmes designed to improve the overall quality of graduates and their socio-emotional skills required by employers; in order to cater the demand of a modern technology based society. Further, graduates are required exposing to cutting edge resources and skills to build well-rounded personality suited for competitive national and international arena. To fulfil above requirements, the Activity 2 proposed to improve and develop the ongoing curricula to meet the local and international demands though the curriculum revision of the all four degree programmes by addressing the following activities.

- Aligning the existing curricular with Outcome Based Education (OBE) and Learner Centered Teaching (LCT) principles through curriculum revision
- Training of academic staff on innovative teaching methods to enhance the student experience through OBE and LCT principles

In order to successfully initiate said activities, training of academic staff on OBE and LCT principles is essential. This consultancy is targeting to provide the hands on experience for academic staff on OBE and LCT principles for their teaching, learning, and assessment processes. Accordingly, this TOR is meant for a consultant for providing

OBE and LCT materials and training for academic staff of FAS. In addition to this, this consultancy will plan to produce the master trainers for future trainings and activities of the FAS. Purpose of the training the Master trainers is to provide the training for students, non- academic staff and new recruit academic staff and those who are study leave when it will required and yearly basis.

3. Objectives of the programme

All degree programmes under FAS have been mapped with SLQF guidelines during the curriculum revision 2020. In addition to, teaching, learning and assessments process of all course units under the each and every degree programmes are required to align with OBE and LCT principles. Therefore, FAS seeks to get External Experts as Consultants to provide the following services.

- Providing the relevant skills and knowledge to Higher Education Faculty on how to develop OBE and to design for Learner-Centred Teaching.
- Mapping the teaching, learning and assessments process of all course units in line with the learning outcomes, number of hours etc, in alignment with OBE and LCT principles
- Training the academic staff on OBE and LCT principles
- Producing Master trainers for future training and activities of the FAS

4. Scope of the work

The selected Consultant is expected to develop material and train the academic staff on OBE and LCT principles. This would cover both theoretical and practical aspects in teaching, learning and assessments processes. However the target group of this programme is the academic staff of the FAS, the ultimate beneficiaries are the undergraduate students under four degree programmes in FAS. It is expected the consultancy will host approximately 30 to 40 academics staffs. Further, the final programme should meet the Intended Learning Outcomes given below.

At the end of the programme, participants should be able to:

- understand outcome-based education and its characteristics
- develop outcome-based learning objectives for their curriculum
- align the curriculum and associated assignments to meet the requirements of outcome-based education
- plan for learner-centred pedagogical approaches such as collaborative learning, problem-solving, and self-directed learning

5. Key Tasks and Related Activities

The key tasks of the Consultant will be to:

- Produce the course material for OBE and LCT principles (hard and soft copies)
- Conduct the three days training programme for academic staff (6 hours per day)
- Identify the master trainers and provide the necessary and adequate guidance for future activities.
- Check the adequacy of OBE and LCT principles alignment into all course units under four degree programmes.
- Plan and Coordinate the programme efficiency and effectively
- Submit the Final Report at the end of the Consultancy.
